On December 7, 2016, Heather Loeffler was killed by a distracted driver who crossed the center line, striking the minivan she was driving head on. It was a senseless accident that could've been avoided. Heather's family and friends would like to take this opportunity to spread awareness about the dangers of allowing yourself to be distracted while driving. Statistics show that 7 in 10 people engage in smartphone activities while driving, and it **MUST STOP!** Please keep your phone out of reach when driving, and make sure your loved ones do the same.

Your tax deductible donations will go towards furthering the education of deserving students in the Career & Technical Education program at Waterford Kettering High School in Waterford, Michigan.
